

**BURRARD
INLET RAIL**

Proudly Serving Western Canada

NEW CONSTRUCTION

Whether you require new track to extend your reach, grow operations, increase railcar capacity or simply replace old lines, Burrard Inlet Rail has the expertise, equipment and materials to provide innovative, industry-leading solutions.

We are a trusted, one-stop resource for large and small rail construction and rehabilitation projects. Our consultative approach, from initial concept design to implementation and final inspection, is key to success. As is our unwavering commitment to safety and attention to detail.

We strategically schedule work in conjunction with live rail operations, allowing tracks to remain open and trains to run on schedule. Experienced project management ensures that all work is completed on time and within budget. It is the quality of our work, combined with a smooth and efficient process, that ensures client satisfaction.

Burrard Inlet Rail provides turnkey solutions for railway track construction to a variety of sectors throughout Western Canada, including:

- **Industrial companies**
- **Municipalities and government**
- **Class 1 railways**
- **Short lines**

Our full-service offering includes:

- **New track construction**
- **Track rehabilitation**
- **Turnout installation**
- **Road crossing at grade**
- **Production surfacing**
- **Ballast programs**
- **Specialty rail construction**
